

Winery Program Scholarly Student Award

The Northern New York Grape Grower Association began over a decade ago to bring together those interested in growing grapes in the North Country. The scholarship has been established for students to carry on the passion of learning and growing the Northern New York wine and grape industry. This award is made to a student studying Winery Management and Marketing who has a GPA of at least 2.5.

The Jefferson Community College Foundation thanks The Northern New York Grape Grower Association for their dedication and support of Jefferson Students!
